

**Subject intent:** To use a range of geographical information and fieldwork to inspire a curiosity about places and people, respectfully comparing, contrasting and celebrating the diversity of our world and other cultures. To appreciate the interconnectivity of physical and human processes, learn about and value our small part of the Earth, our environmental impact and relate this to global change.

Subject: Geography

Lead: Jeanette Court

	Autumn	Spring	Summer
	For NC coverage refer to Rising Stars 'Curriculum Coverage and Progression Chart' and take learning objectives from Rising Stars unit plans.
